

COIN OPERATED ELECTRONIC QUANTUM GOLD WASHERS

SCN020 - 20lb/8.16kg Washer

SCN030 - 30lb/13.6kg Washer

SCN040 - 40lb/18kg Washer

SCN060 - 60lb/27kg Washer

SCN080 - 80lb/36.3kg Washer

 **MADE IN AMERICA, BUILT TO LAST SINCE 1908**

 **Speed Queen®**

THE BEST IN CLASS JUST GOT BETTER

For more than a century, Speed Queen has been at the forefront of the industry, building our legacy by providing equipment that stands up to any commercial laundry challenge.

We make no compromises in performance and refuse to be outdone in reliability and efficiency. And our commitment to quality is only matched by our commitment to your success, delivering you the most profitable machines in the industry, bar none.

Unlike some competitors Speed Queen machines are built specifically for the commercial environment; we use metal where others use plastic and our world-class test lab rigorously pushes our products far beyond the conditions they'll face in the field.

For commercial laundry equipment specifically designed for use in laundromats, you can rely on the tried, tested and proven performance of Speed Queen, to make your life simpler and more productive.

With Industry leading manufacturing facilities in the USA and Europe, designs refined for more than a century and machines built to last, Speed Queen Laundry equipment represents a secure investment for your laundry facility.

DEDICATED TO A HIGHER STANDARD

PROPRIETARY INVERTER DRIVE

Our exclusive, highly efficient inverter drive provides smooth, reliable power, saving you 33% on electricity versus 2-speed models.

AUTO WATER LEAK DETECTION (HARD MOUNT ONLY)

Quantum immediately alerts you if there is a leak or obstruction in your machine to find those costly hidden issues that no one can see.

SLOW DRAIN DETECTION (HARD MOUNT ONLY)

Slow drains add to cycle times making your machine less productive and annoying your time conscious customers. However with Quantum you will receive an automatic alert you if a time wasting slow drain condition exists in any of your machines.

QUANTUM CONTROLS

Your business is your business, and you should be able to operate it on your terms. The cutting-edge Quantum control system from Speed Queen gives you the freedom to run your business your way and the power to achieve unprecedented levels of profitability.

This revolutionary technology combines equipment controls and programming into one full-store management system for washers and tumble dryers.

Quantum Gold gives you more control with added cycles, automatic shutdown, price modifiers, wireless networking and more.

Quantum controls will help you adjust your cost structure, reduce your utility costs, increase your revenue and ultimately maximize your profitability.

QUANTUM GOLD CONTROL

Quantum Gold offers operators the pinnacle in flexibility with a total of 30 programmable cycles and 30 programmable water levels.

Owners can easily program their washer-extractors with the aid of a PC or they can network the machines and then connect through their site business network or cable direct from PC to the machine network. This port also is the manager's glimpse at the laundry operation as machine audit data can be downloaded to a PC.

MAXIMISE REVENUE POTENTIAL

Optimise your profitability like never before with Quantum. Reduce programming and on-site labour time with Quantum Gold's in-depth profit reports that provide store and revenue breakdowns to help you make smart, informed business decisions. Plus, Quantum Gold offers cycle modifiers that allow you to customise cycles depending on the load type to enhance your profit by reducing utilities usage.

MANAGE YOUR LAUNDRY

Think of Quantum Gold as your store manager. With the ability to wirelessly connect your laundry machines together, you can program, monitor, audit and diagnose your equipment from any Internet-connected computer, anytime and anywhere.

With auto shutdown, customers can only start wash loads if there's enough time to dry a load before closing. The product also offers low power mode to reduce costs while the laundromat is closed.

Quantum Gold also runs routine diagnostics and sends you email notifications for up to 40 warnings to manage maintenance expenses.

Plus, audit data offers in-depth store and revenue reports to optimise your financial performance. With fewer employees to manage everyday tasks, you can greatly increase your profitability.

QUANTAM GOLD SERIES WASHERS

Our redesigned line of Speed Queen washer-extractors is better than ever. These front load coin operated washers have the following benefits:

ADVANCED INVERTER DRIVE

This proprietary technology provides smooth, reliable power; saving you up to 33% on electricity costs versus previous models.

SUMP SYSTEM DESIGN

Uses 11% less water while maximising cleaning power.

FASTER EXTRACTION SPEED

New technology on Quantum Gold machines allow a choice of spin speeds up to 200 G-force extraction to remove more water, leading to shorter dry times and lower energy bills.

LEAK DETECTION

Patented Water Guardian saves water by detecting slow or leaking fill-valves and drains.

STRONGER FRAME

Computer-optimised frame lasts longer, balances loads more efficiently and is pallet jackable, making it easier to install.

QUIET PERFORMANCE

Stronger frame is designed to reduce sound and vibration levels.

THE NEW MACHINES STILL CONTAIN THESE GREAT FEATURES THAT HAS ALWAYS MADE SPEED QUEEN BEST IN CLASS:

- Four compartment dispenser
- Automatic door lock
- Secure, high-capacity coin vault
- Protected bearings, shaft and seal
- Ergonomic door handle
- Front service access

Additionally, every machine easily integrates with most aftermarket smart card and credit card payment systems.
