

VENDED SFNNLX / SFNNLX-SS
Speed Queen® Front Load Washers

Speed Queen®

BUILT FOR RELIABLE PERFORMANCE.

You would expect that after 100 years at the forefront of an industry, a company must have a finely honed craft — a premier product. Well, you'd be right. For more than a century, Speed Queen® has built a legacy on providing equipment that stands up to any commercial laundry challenge. We make no compromises in performance. We refuse to be outdone in reliability and efficiency. Our commitment to quality is only matched by our commitment to your success. The result? The most profitable machines in the industry — bar none.

While some of our competitors may be content with doing laundry the way it's always been done, we're dedicated to pushing technology and innovation further every day to discover untapped laundry possibilities. Through our unique five-stage development process, including a world-class test lab in which we rigorously push our products far beyond the conditions they'll face in the field, we're able to engineer the longest lasting, most reliable, most revolutionary and most profitable laundry equipment on the market. We believe in being there when our customers need us most. And we go the extra mile at every point of our manufacturing process to ensure that our machines reflect that belief.

LAUNDRY. IT'S ALL WE DO.

As the world's largest commercial laundry company, we help you achieve profitability with more laundry services than anyone else in the industry.

LAUNDRY DESIGN

From selecting the right location to choosing a layout — and everything in between.

LOCAL NETWORK OF SERVICE AND MAINTENANCE SUPPORT

Our team based in Thornbury (VIC) support a wide network of laundry experts across the Southern States (Victoria, Tasmania and South Australia) offering a complete package of guidance, service and support for all product sold.

CUSTOMER ONE

We're committed to delighting our customers at every point of interaction.

GENUINE PARTS

Our replacement parts are the exact same as the originals, providing the perfect maintenance solution.

FINANCING

Experience. Knowledge. Guidance. Speed Queen **can assist in Financial options.** To define a viable financial strategy, whether you're a first time investor or sophisticated entrepreneur. See for yourself how our progressive programs, successful track record and unbeatable laundry expertise can help you succeed.

DEDICATED TO REVOLUTIONARY INNOVATION.

REVOLUTIONARY BALANCING TECHNOLOGY

Automatically redistributes even the most unbalanced loads for consistent cycle times, minimized vibration and reduced noise.

20% LARGER CAPACITY

An even larger **96.8Lt** washtub.

440 G-FORCE FINAL SPIN

Industry-leading spin speeds remove more moisture from each load, helping to minimize dry times.

DOOR OPENING

15.5" diameter and a 180° door swing help customers quickly load and unload the machine.

4-COMPARTMENT SOAP DISPENSER

Redesigned soap dispenser offers compartments for pre-wash detergent, wash detergent, bleach and fabric softener.

IMPROVED DISPENSER FLUSHING

Four times more flushing and siphoning delivers superior cleaning of dispenser.

30% LARGER COIN BOX

Larger integrated coin box on front control front load washers reduces the time you spend collecting coins.

10° TILTED CONTROL PANEL

Allows control visibility without bending down, improving the customer experience.

2.5 TIMES LESS NOISE

Helps create a more welcoming environment for your customers.

HEAVY-DUTY DESIGN

Features like a rugged suspension system and stainless steel washtub and outer drain combine to deliver long-lasting performance.

PATENT-PENDING BAFFLES

Revolutionary baffle design cascades water throughout the entire load to ensure superior wash results.

IMPROVED EFFICIENCY

20% larger capacity uses only 6% more water for superior washability, increased customer satisfaction and lower utility bills.

QUANTUM® GOLD CONTROLS.

Your business is your business, and you should be able to operate it on your terms. The cutting-edge Quantum® control system from Speed Queen gives you the freedom to run your business your way and the power to achieve unprecedented levels of profitability. This revolutionary technology combines equipment controls and programming into one full-store management system for washers and tumblers — helping you adjust your cost structure, reduce your utility costs and increase your revenue from any computer, anywhere in the world.

MAXIMIZE REVENUE POTENTIAL

Reduce programming and on-site labor time with Quantum Gold's in-depth profit reports that provide store and revenue breakdowns to help you make smart, informed business decisions. Quantum also offers cycle modifiers that allow you to customize cycles depending on the load type, enhancing your revenue by 4-5%. Plus, Quantum controls are coin and card capable to provide ultimate customer convenience — not to mention more profit opportunities.

MANAGE YOUR LAUNDRY

With the ability to wirelessly connect your laundry machines together, you can program, monitor, audit and diagnose your equipment from any Internet-connected computer, anytime and anywhere. With auto shutdown, customers can only start wash loads if there's enough time to dry a load before closing. Quantum also runs routine diagnostics and sends you email notifications for up to 40 warnings to manage maintenance expenses. Plus, audit data offers in-depth store and revenue reports to optimize your financial performance.

INCREASE FLEXIBILITY AND PROFITABILITY

Cycle modifiers. Time of day pricing. Adjustable water levels. Infrared communication. Quantum provides complete control over programming and pricing based on your segment, peak periods and customer feedback. Its payment system's open architecture easily integrates with your aftermarket payment system. And for ultimate convenience, Quantum's networking system is now available in wireless.

REDUCE OPERATING COSTS

With Quantum's advanced features, you can seamlessly adjust to changes in your cost structure, reduce utility and labor costs and maximize the overall efficiency of your equipment. Automatic leak detection alerts you to leaks or obstructions to help avoid expensive water and sewage bills, while slow drain detection monitors drain time to catch errors before they become a costly issue. And with adjustable water levels, you can modify the amount of water used for each cycle. The result? Less downtime for your machines, lower preventative maintenance costs and savings on utilities and labor.

Speed Queen®

FRONT LOAD WASHER SPECIFICATIONS

| Models: SFNXXA / SFNXXA-SS | Front Load Washer |
|---|--|
| Available Controls | Quantum |
| Available Control Location | Front |
| Capacity - lb (kg) | 21.5 (9.5kg) |
| Cylinder Volume - cu. ft. (liters) | 3.42 (96.8Lt) |
| Width - in (mm) | 26 7/8 (683mm) |
| Depth - in (mm) | 27 3/4 (704mm) |
| Height - in (mm) | 44 3/8 (1126mm) |
| Spin Speed G-Force (RPM) | 440 (1200RPM) |
| Motor Size - HP (kw) | Variable Speed Induction 0.9 (0.67kw) |
| Water Consumption per Cycle - g (l)* | 11.7 (44.3Lt) |
| WF (Water Factor) | 3.8 |
